

Schoolgateway

What is School Gateway?

School Gateway is the parent portal (app and website) that provides a single point of contact that allows parents to receive messages and payment requests from your school and react to those notifications. This means that you will be able to make online payments via the School Gateway smartphone app or website. You will also be able to view school meal balances and top them up at any time. Downloading the app allows you to communicate more efficiently and directly to school.

Save money and time by downloading the School Gateway app

If you have a smartphone, both you and school can save money when you download the School Gateway app for your smartphone (Android and iPhone). Search for School Gateway with the following symbol in your app store.

Using the app means we can send you app messages that you can reply to. It's quick and simple to do. All you need is your email address and mobile number that the school holds on record for you. If you have trouble logging in, please call us on 01923 770909 (opt 4) or come into the office.

If you don't have a smartphone, you will still receive text messages from the school.

If you're having trouble activating your School Gateway account, it may be because school doesn't have your current email and mobile phone number on record or you are not set as a *Priority 1* contact. Please call the school and we'll update the details on our system.
